Gutter Guards

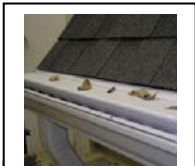

Installed by "A Clear View"

678-878-8455

Gutter guards are installed on rain gutters to prevent leaves, twigs and other debris from clogging the downspouts. Obstructed downspouts will prevent rain run-off from flowing through the rain-carrying system and away from the foundation. Water that cannot run freely can back-up and overflow the gutter causing damage to the landscaping and the foundation below. If water leaks behind the gutter, damage to the roofline and the fascia is a possibility.

Prevent costly repairs with Gutter Guards.

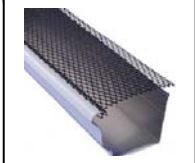

Leaf Pro XL An advanced gutter protection system. Made from .024" aluminum, each four-foot panel fits directly to any standard 5" or 6" gutter. Leaf Pro™ offers maximum gutter protection from leaves, seeds, needles, and pest. Available in 8 colors. New features include a more nose forward design which extends past the lip of the gutter for optimal shedding of even smaller debris. Enlarged holes for more drainage capacity during even extremely heavy rainfall. Installed for **\$5.95** per linear foot.

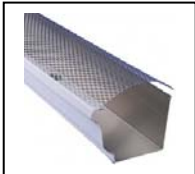

The Gutter Cover The Gutter Cover™ system is a proven debris eliminator that works! The all aluminum .019" panels have no slots, holes or mesh to catch leaves and debris. One-piece design allows only water to enter the gutter system by surface tension and electromagnetic attraction. Water will follow the curved surface of Gutter Cover™ while debris falls over the edge, eliminating build-up and messy gutter cleaning. Installed for **\$4.95** per linear foot.

Gutta Guard The Gutta Guard™ protects gutters from the hazards of every season. All year long, pine tags, leaves, twigs, cones and other small debris fall from the trees that surround homes. Gutta Gard™ assures that debris roll over the gutters instead of ending up in them. Gutta Gard can effectively handle 6 inches of rainfall per hour. Fits standard 5" K Style gutter. Available in White, Brown, and Black. Installed for **\$3.95** per linear foot.

*****Lock-On Gutter Guard***** Recommended for value and function.
Low visibility. Very rigid; will not collapse under ice and snow. Made from heavy gauge steel for more rigidity. Special powder coated finish ads longer durability. Black finish blends to shingle. Also ideal for cedar shake, tile, and metal roofs. Unique edge locks directly to gutter lip. Installed for **\$2.95** per linear foot.

Hinged Gutter Guard The Black Painted Hinged Gutter Guard offers a unique tipping feature uncommon in other designs. Handy three-foot sections fit any 5" or 6" K-Style gutter. The powder painted black finish offers minimum visibility with most shingles. Color is black. Installed for **\$1.95** per linear foot. (5-year gutter service not included with this item.)

******Current Special \$2.50 Per Linear foot for Lock –On Gutter Guard******

Service Includes: Linear Feet: _____ Type: _____ Quote: \$ _____
